Supportive Services for Veteran Families (SSVF)

Program is designed to address homelessness and is a "Housing First" model to help Veteran families with housing outreach and assistance addressing factors such as unemployment, lack of income, limited income, disabilities, mental illness, substance use, poor credit, criminal histories and traumatic events that affect housing stability. The SSVF program is designed to help Veteran households address these issues and secure permanent housing. SSVF provides a short, intensive period of case management to link families to benefits and may provide temporary financial assistance with housing and moving expenses. Veterans with low-income facing housing instability should apply. Limited financial assistance helps Veterans remain in or obtain permanent housing such as rent (not including mortgage payments) , security or utility deposits, utility payment, moving costs, transportation, and child care.

Only participants receiving case management are eligible for financial assistance payments
